I am delighted to write a letter of reference for Favour Fabian following their completion of the EntryLevel UX Designer Level 2: Visual/UI Design Program.

Favour has successfully completed the 6-week program and has shown excellent proficiency in using Figma, a popular design software, to create high-fidelity mockups and wireframes.

Favour's final project demonstrated an understanding of visual design fundamentals, such as hierarchy and spacing, by conducting competitor analysis, as well as an excellent grasp of iconography, typography, and colour psychology. Favour demonstrated their ability to apply these concepts effectively by creating mood boards and implementing them in their project.

Favour also excelled in creating a well-written and well-organized case study, which showcased their ability to effectively communicate design decisions and strategies.

EntryLevel also awards badges to signify exceptional performance and Favour was awarded the following badges:

The "Critical Thinker" badge, for going above and beyond in giving constructive feedback to their peers by reviewing their portfolios.

The "Team Player" badge, for completing the program alongside a peer group, demonstrating the willingness to learn and solve problems collaboratively.

Best Regards,

The EntryLevel Team
